AKAEID HASAN

FRONTEND DEVELOPER

ABOUT ME

I'm a self-taught Frontend Developer with strong expertise in WordPress, especially building modern, responsive websites using Elementor. I've developed various portfolios, blogs, and business sites that are user-friendly, fast, and visually polished.

Without a formal academic background, I've developed my skills through online learning, practical projects, and continuous self-improvement. I also work with HTML, CSS, Tailwind CSS, and I'm expanding my knowledge in JavaScript.

I value clean design, smart functionality, and delivering results that make a difference.
